

Uprights and profiles

Upright tubes are the basic element for accessorizing our industrial furniture. Accessories are attached to Cornerstone, Concept, TED, and TP benches with the aid of upright tubes or a complete, upright tube module.
The complete upright tube module includes upright tubes, corner bracket pair and straight bracket pair (if module includes more than one horizontal tube). For Cornerstone and Concept benches, the upright tubes are attached to the rear case of the bench. With the TP bench, they attached to the accessory frame. For the TED bench, upright tube pair is attached onto the worktop with screws.
