

Everlast Series

Built for comfort, support, and durability, the Everlast Series chair is ideal for manufacturing, healthcare, cleanroom, and lab settings. Its rugged polyurethane design, ergonomic adjustments, and optional ESD protection make it a versatile choice for demanding environments.

- Antibacterial, non-slip polyurethane resists punctures, grease, water, and most chemicals
- Ventilation ribs improve air circulation and seated comfort
- Adjustable contoured back promotes proper spinal alignment
- Waterfall seat edge helps improve lower body circulation
- Built-in handle on backrest for easy movement
- Available in 2-, 3-, or 4-way ergonomic control configurations
- Pneumatic height adjustment and 18″ chrome footring on mid/tall models
- ESD models meet ANSI/ESD STM12.1 – 2019 with conductive base and drag chain
- Cleanroom models certified to ISO Class 4 by independent lab
