

Power rails

Treston power rails come with a range of features designed to meet the diverse needs of our customers. These power rails are UL Listed, ensuring compliance with safety standards (surge protection certification currently pending). Power rails are available in a variety of sizes including M20, M30, M36, M40, M48, M53, M60, and M72, making them a perfect fit for expanding the length of our upright bays. They are designed for convenience, featuring built-in mounting brackets that eliminate the need for assembly.
Customers can choose from 15 amp, 20 amp, and twist lock plug options to suit their power needs. Both surge and non-surge models are available, with non-surge 15 amp models readily stocked in 30/36/48/60/72 configurations. While black power rails will be the standard offering, other colors can be provided upon request to match different environments or preferences. Additionally, we offer the flexibility to accommodate additional power and data configurations, and we are open to special requests to meet specific requirements. All of our power rails come with a 1-year warranty, ensuring peace of mind and reliability for our customers.

Specifications:

- Extruded aluminum channel mounted to 14 gauge brackets
- On/Off rocker switch
- 8’ molded power cord included
- M20/M30 power rails: 6 outlets
- M36/M40 power rails: 8 outlets
- M48/M53/M60/M72 power rails: 10 outlets

Power rails (27)

Code	Product	Width (inches)	Depth (inches)	Height (inches)	ESD	Color name	Power cord (inches)	Packaging type	Warranty years	Gross weight (lbs)	Suitable for module	Available for the following products	Frame material	Availability USA
